HOSPITAL INFECTION CONTROL

1985 INDEX

Volume 12, Numbers 1-12
pages 1-156

Indexed by: Tony Greenberg, MD **Editor: Theresa Waldron**

A

AAMI
Standards and Recommended Practices: 1985 Reference Edition, MAR:35
ACIP
adult immunization recommendations, JUN:79
annual educational conference, FEB:16
on DTP vaccine, FEB:21
influenza vaccination guidelines, OCT:121
on protection against viral hepatitis, JUL:83, JUL:SUPP-3
Admitting department
increased readmissions for nosocomial infections under DRGs, JUL:85
patient placement in huge Salmonella outbreak, JUN:72
screening criteria for patients exposed to varicella, MAY:56
Aerosolization of bacteria
by air fluidized beds, MAY:67
AICE software, JUN:71
NOSO-3 contrasted with, AUG:100
in surveillance system, AUG:100
AIDS (See also HTLV-III virus)
in ambulatory surgery setting, SEP:107
APIC Education Packet on, DEC:153
brochure on, JAN:9
Clinitron beds for (RQ), MAR:32
disinfecting dialyzers used by, MAY:55
disposal of HTLV-III antibody-positive blood, APR:45
educational packet on, MAY:66
false results in antibody test, MAR:37
hepatitis B vaccine safe from, FEB:20
increasing incidence, JAN:8
job-related concerns, JUN:79
legal considerations of isolation system for, JAN:3
outpatient clinic concerns regarding, SEP:105
overisolation doubling cost of isolation garb, JUL:91
pamphlet published by U.S. Public Health Service, MAY:64
Plain Words on AIDS guide, SEP:111
Reference Guide for Medical Professionals, JUL:88
safety of blood supply from, MAY:58
screening blood by antibody test, MAR:36; APR:44
slide and tape presentation Protecting Yourself, Your Staff, and Other Patients, MAR:36
tainted anticancer product of Bahamian clinic not linked to, SEP:111
transfusion-related, JAN:9
transmission by tears, OCT:129
What If Patient Has Aids? videotape, JUL:88
Air circulation
in isolation room, MAY:54
Air fluidized beds
and bacterial aerosolization, MAY:67
infected patients treated in (RQ), MAR:32
Alcohol (See also Isopropyl alcohol)
in antisepsis for intravenous therapy or injections (RQ), OCT:126
comparison in cord care with triple dye, NOV:135
in disinfection of pressure-monitoring transducers, NOV:133
Amantadine
in influenza, OCT:122
Ambulatory surgery
AIDS patients in, SEP:107
Animals
microorganisms isolated in pet therapy program, APR:51
Antibiotics
CDC guideline changes on prophylactic use in surgery, JUL:83
Antiseptics (See Disinfectants)
APIC
AIDS Education Packet, DEC:153
annual conference in 1985, JUL:85
certification examination for infection control practitioners, JUL:84
Certification Preparation Study Guides, DEC:153
mock trial program on infection-related lawsuit, MAR:27
Survival Kit, AUG:96; DEC:153
Association for Advancement of Medical Instrumentation (See AAMI)
Association for Practitioners in Infection Control (See APIC)
Audiovisual materials
Protecting Yourself, Your Staff, and Other Patients — on AIDS, MAR:36
What If Patient Has Aids? videotape, JUL:88

B

Bacteremia
tainted blood coagulation tubes causing false positive cultures, JUN:78
Bacteriuria
laboratory criteria for contaminated specimens (RQ), JAN:7
Bandages
new Japanese product releasing antimicrobials, MAR:29
BCG vaccine
in immune-deficient patient, JUL:89

Beds
in AIDS patients (RQ), MAR:32
Biguanide biocides
new Japanese bandage releasing, MAR:29
Blender
Enterobacter outbreak on cardiac surgery unit due to, MAY:67
Blood
AIDS antibody test for screening, MAR:36
Blood cultures
tainted blood coagulation tubes causing pseudobacteremia, JUN:78
Body site infection rates, APR:42
Book reviews (See under Sources of Information)
Bronchoscopy
disinfection between cases (RQ), DEC:151
infection precautions in, SEP:107
Burns
hepatitis B screening in amnion donors (RQ), JAN:6
new Japanese bandage releasing antimicrobials, MAR:29

C

Cancer
tainted Bahamian product not linked to AIDS, SEP:111
Catheters
improper care of multilumen devices linked to deaths, JUL:83
infection risk from disconnection of central lines (RQ), JAN:7
transparent versus dry gauze dressings at IV site, APR:50
Centers for Disease Control
death of deputy chief of Nosocomial Infections Laboratory, JUL:89
environmental control guidelines, FEB:17
isolation guideline implementation, JAN:1
new guidelines save money, JUL:81
nosocomial infection prevention revised guidelines, DEC:153
on preventing AIDS spread through tears, OCT:129
waste disposal revised guidelines, DEC:153
Central lines
infection risk from brief disconnection (RQ), JAN:7
Central services
decontamination of instruments contacting pus or blood (RQ), JUN:75
off-site sterilization services replacing functions, MAR:31
shelf life of prepackaged sterile items (RQ), JUL:86
shoe covers in (RQ), OCT:126
Certification examination
for infection control practitioners, JUL:84
Cesarean section
neonatal herpes simplex infection not prevented by, JUN:76
Chickenpox (see Varicella)
Children
isolation signs for, JAN:4
Chlorine
in hydrotherapy pool (RQ), AUG:98
Chronic illness
Vibrio vulnificus infection associated with, DEC:155
Cleaning agents
correction of usage as effective cost-containment method, AUG:96
Clinitron beds
in AIDS patients (RQ), MAR:32
Clippers
in preoperative hair removal, JUL:83, 90
Clothing
in caring for AIDS patient, SEP:107
humorous fashion show teaches about new CDC categories, SEP:109
OB-GYN personnel wearing cover gowns over scrub suit (RQ), SEP:113
shoe covers in hospital areas (RQ), OCT:126
wearing false fingernails (RQ), AUG:99
Computers
in infection control program, APR:41
in isolation program, JAN:4
NOSO-3 software as versatile as AICE, AUG:100
second generation software for surveillance, JUN:71
in wound infection surveillance, JUN:71
Contact lens
disinfection between fittings, OCT:129
Cost containment
AIDS overisolation doubles cost of isolation garb, JUL:91
APIC Survival Kit strategies, AUG:96
CDC guidelines save money, JUL:81
correcting cleaning agent usage in, AUG:96
cutbacks in infection control program common under prospective payment, DEC:148
eliminating rituals in infection control program, FEB:22
eliminating routine sputum cultures, MAY:63
isolation practices unnecessarily adding to cost, OCT:130
Cost-effectiveness
nosocomial infections as major loss under DRGs, NOV:141
time-saving shortcut results in extra costs, AUG:103
in use of pressure-monitoring transducers, NOV:134
waste disposal ordinance adds cost to hospitals, OCT:124
Creutzfeld-Jakob disease
preventing nosocomial spread, DEC:145
Cultures
eliminating routine studies on sputum, MAY:63
Cytomegalovirus
in day-care centers, APR:49
after kidney transplant, DEC:155

D

Day-care centers
cytomegalovirus endemic in, APR:49
hepatitis prevention in, JUL:SUPP-3
Decontamination (See also Disinfectants; Sterilization)
of Clinitron beds (RQ), MAR:32
in Creutzfeld-Jakob disease prevention, DEC:145
dialyzers used by AIDS patient, MAY:55
home laundering of scrub suits (RQ), MAR:34
of HTLV-III antibody-positive blood, APR:45
instruments contacting pus or blood (RQ), JUN:75
off-site unit replacing central services function, MAR:31
of spirometers, JUL:85
Dentists
hepatitis B outbreak traced to, APR:49
Diabetes mellitus
reuse of disposable insulin syringes (RQ), JAN:6
Dialysis
hepatitis B vaccine response related to injection site, APR:48
Dialyzers
decontamination after use by AIDS patient, MAY:55
Diarrhea
vaccine against rotavirus, JAN:10
Diphtheria
immunization in adults, OCT:131
Dishes
ineffectiveness of disposable dishes, FEB:22

Disinfectants
agents causing irritation to skin, MAR:35
for AIDS virus, JUN:78
alcohol for pressure-monitoring transducers, NOV:133
avoidance of contamination by storage in closed containers until use (RQ), AUG:99
for blenders, MAY:67
for Clinitron beds (RQ), MAR:32
comparison between alcohol and triple dye for cord care, NOV:135
contamination (RQ), OCT:127
in Creutzfeld-Jakob disease prevention, DEC:146
evaluating manufacturer's claims (RQ), MAY:60
for hepatitis B virus (RQ), DEC:151
for Hubbard and immersion tanks (RQ), NOV:138
in hydrotherapy pool (RQ), AUG:98
for instruments contacting AIDS patient, OCT:129
for intravenous therapy or injections (RQ), OCT:126
new Japanese bandage releasing, MAR:29
Drainage bags
frequency of changes (RQ), SEP:112
Dressings
hepatitis B screening in amnion donors for burns (RQ), JAN:6
transparent versus dry gauze at IV site, APR:50
DPT vaccine
postponing doses due to shortage, FEB:21
shortage of supply, APR:49
split doses, FEB:21
DRG (See Prospective Payment)

E

Ear
middle ear inflammation after endotracheal intubation, DEC:154
Education
APIC 1985 annual conference, JUL:85
children's drawings of pathogens, MAY:62
handwashing compliance survey in, MAY:65
humorous isolation fashion show teaches about new CDC categories, SEP:109
infection control week as promotional activity, AUG:95
mock trial on infection-related lawsuit, MAR:26
posters used in implementing isolation guidelines, JAN:2
teddy bear posters on handwashing, MAY:65
video laser disc system in problem solving, MAR:28
Education Forum
enhancing data-laden programs with stories, quotes, and questions, MAR:38
evaluating inservice audience's comprehension, SEP:118
tailoring presentation to audience overcomes feelings of inadequacy, JUN:77
true-false pretest before inservice program, DEC:152
Elderly
influenza vaccination for, OCT:121
nosocomial infections in, MAR:31
pneumococcal vaccine for, OCT:123
Employee health
chickenpox exposure, MAY:53
influenza vaccination program, OCT:122
lesions likely to spread herpes (RQ), DEC:150
tuberculosis control (RQ), FEB:18
VZIG administration after exposure to varicella, MAY:56
Endoscopes
disinfection between cases (RQ), DEC:151
disinfection in Creutzfeld-Jakob disease prevention, DEC:146
Endoscopy
prevention of cross-contamination in repeat cases (RQ), DEC:151
Endotracheal intubation
middle ear inflammation after, DEC:154
Enterobacter
outbreak on cardiac surgery unit caused by, MAY:67
Environmental control
CDC guideline changes save money, JUL:81
CDC revised guidelines on, FEB:17
Equipment
disinfection in Creutzfeld-Jakob disease prevention, DEC:146
Evaluation
of inservice program, SEP:118
Eye
AIDS virus in tears, OCT:129
Eye-care solutions
duration of safe use, JUL:85

F

Fingernails
acrylic nails linked to infection, OCT:125
and handwashing (RQ), AUG:99

G

Gloves
for venipuncture, SEP:107
Glutaraldehyde
evaluating manufacturer's claims as disinfectant (RQ), MAY:60
Goldfish
as infection control hazard (RQ), MAY:61
Gowns
nonwoven barrier material equal to cotton, JUL:85
in nursery, NOV:137
OB-GYN personnel wearing cover gowns over scrub suit (RQ), SEP:113
Growth hormone
Creutzfeld-Jakob disease transmitted by, DEC:145

H

Hair
removal before surgery, JUL:83, 90
Handwashing
acrylic fingernails effect on (RQ), AUG:99
agent causing irritation to skin, MAR:35
CDC guidelines on, FEB:17; JUL:82
compliance survey on, MAY:65
teddy bear posters for, MAY:65
video disc demonstration on importance of, MAR:28
Heart surgery
blender causing Enterobacter outbreak on unit, MAY:67
Heat sterilization
of AIDS virus, JUN:78
Hepatitis
ACIP recommendations for protection against, JUL:83, JUL:SUPP-3
Clinitron beds for (RQ), MAR:32

Hepatitis B
congenital infection prevented by immune globulin at birth, SEP:108
deactivation of virus by disinfectants (RQ), DEC:151
outbreak traced to dentist, APR:49
screening amnion donors for (RQ), JAN:6
surgeon carrier forced to cease surgery, FEB:15
tainted Bahamian anticancer product linked to, SEP:111

Hepatitis B vaccine
APIC recommendations for use, JUL:SUPP-4
for dentists, APR:49
safety from AIDS, FEB:20
site of injection related to dialysis patients' response, APR:48

Herpes simplex infection
employee lesions with risk of spread (RQ), DEC:150
newborn infection occurring despite cesarean section, JUN:76

Herpetic whitlow
risk of spread of (RQ), DEC:150

Home health care
infection control in, FEB:20

Homosexuality
changes in sexual behavior in San Francisco, DEC:154

Hospitals
infection control practitioners participation in planning new facilities, SEP:117
waste disposal law involving, OCT:124
water cooling towers associated with Legionnaires' disease, JUN:76; JUL:90

HTLV-III virus (See also AIDS)
antibody test proven accurate, NOV:137
disposal of antibody-positive blood, APR:45
susceptibility to heat and disinfectants, JUN:78
in tears of AIDS patients, OCT:129

Hubbard tank
cross-contamination in (RQ), NOV:138

Hydrotherapy pool
cross-contamination in (RQ), NOV:138
transmission risk in (RQ), AUG:98

I

Immersion tank
cross-contamination in (RQ), NOV:138

Immune globulin
in hepatitis prevention, JUL:SUPP-3
prophylactic administration to babies of hepatitis B carriers at birth, SEP:108

Immunization
ACIP recommendations for adults, JUN:79
ACIP recommendations for viral hepatitis, JUL:SUPP-3
postponing DTP doses due to shortage, FEB:21
site of injection of hepatitis B vaccine related to response in dialysis patients, APR:48

Immunodeficiency
live virus vaccine in, JUL:89

Infection control practitioners
certifying examination for, JUL:84
Emory University course for, JAN:11
innovative implementation of isolation guidelines by, JAN:1
involvement with architects in planning new facilities, SEP:117
job security under prospective payment, DEC:148
tips on testifying in infection-related lawsuits, MAR:25

Infection control program
best type of surveillance, AUG:100
CDC guideline changes save money, JUL:81
for chickenpox cases, MAY:53
cutbacks common under prospective payment, DEC:148
effectiveness, JAN:5 (See also SENIC)
eliminating rituals in, FEB:22
in home health care, FEB:20
importance of practical policies in avoiding lawsuit, MAR:27
microcomputer use in, APR:41
prospective payment challenge to, FEB:22; DEC:148
staffing determined by patient mix, AUG:93

Infection risk
from disconnection of central lines (RQ), JAN:7
of goldfish (RQ), MAY:61
of herpes lesions in employees (RQ), DEC:150
nocardiosis related to immunotherapy, JAN:8
of pressure-monitoring transducers, NOV:133
for wound infection, JUN:69

Infectious wastes (see Waste disposal)

Influenza
amantadine therapy, OCT:122
nosocomial spread, OCT:124
vaccination of elderly against, OCT:121

Influenza A
outbreaks throughout country, MAR:37

Injections
antisepsis prep for (RQ), OCT:127

Insects
laboratory identification (RQ), FEB:19

Instruments
decontamination (RQ), JUN:75

Insulin
reuse of disposable syringes by diabetics (RQ), JAN:6

Intensive care unit
eliminating routine sputum cultures in, MAY:63
neonatal (see Neonatal intensive care unit)
patient mix determining appropriate infection control staffing, AUG:93

International Federation of Infection Control
formation, MAR:35

Intravenous therapy
antisepsis prep for (RQ), OCT:126
improper care of multilumen catheters linked to deaths, JUL:83
infection risk from brief disconnection (RQ), JAN:7
luer lock connections in (RQ), JAN:7
replacing tubing (RQ), JAN:7
transparent versus dry gauze dressings at site, APR:50

Iodine compounds
in antisepsis for intravenous therapy or injections (RQ), OCT:126

Isolation
category-specific guidelines, JAN:1
computers used for, JAN:4
cost containment in, OCT:130
in Creutzfeld-Jakob disease, DEC:147
disease-specific category as potential legal problem, JAN:3
elimination of ineffective methods, FEB:23
humorous fashion show teaches about new CDC categories, SEP:109
innovative implementation of CDC guidelines, JAN:1
length of time for TB patients (RQ), JUN:74
in outpatient setting, SEP:105
overisolation of AIDS patients doubling cost, JUL:91
patient placement in huge Salmonella outbreak, JUN:72
in postoperative infections (RQ), APR:47
privacy concerns for AIDS patient, JAN:3
signs for pediatric patients, JAN:4
in tuberculosis, JAN:3; JUN:74

Isopropyl alcohol
in hepatitis B virus deactivation (RQ), DEC:151

J

Journal review
(This annotated bibliographic column by Charles P. Craig, MD, appears regularly. Articles cited in each column are not listed in this index. See JAN:12; FEB:24; MAR:40; APR:51; MAY:68; JUN:80; JUL:92; AUG:104; SEP:120; OCT:131; NOV:144; DEC:156)

K

Kidney transplantation
cytomegalovirus infection after, DEC:155

L

Laboratory
AIDS antibody test to screen blood, MAR:36
CDC guidelines on microbiological sampling, JUL:82
controversy in AIDS screening tests, APR:44
criteria for contaminated urine specimens (RQ), JAN:7
eliminating routine sputum cultures, MAY:63
identification of insects (RQ), FEB:19
saline contamination causing Pseudomonas pseudoepidemic, AUG:103
significance of shift to the left (RQ), JUL:87
stool specimen containers (RQ), NOV:139
tainted blood coagulation tubes causing pseudobacteremia, JUN:78

Laundry
CDC guideline changes on, JUL:82
home cleaning of scrub suits (RQ), MAR:34
sterilizing linen for nursery and neonatal intensive care unit, APR:43

Legal issues
disease-specific isolation as violation of Privacy Act, JAN:3
importance of practical policies in avoiding lawsuit, MAR:27
mock trial on infection-related lawsuit, MAR:26
testifying in infection-related lawsuit, MAR:25

Legionnaires' disease
hospital cooling towers associated with, JUN:76; JUL:90
hyperchlorination of water storage tanks effective control measure, JUL:88

Leukocytes
significance of shift to the left (RQ), JUL:87

Liver disease
Vibrio vulnificus infection associated with, DEC:155

Luer lock lines
in intravenous therapy (RQ), JAN:7

M

Medical devices
reuse practices in widespread use, MAY:58

Medicolegal issues (see Legal issues)

Mediscrub
as disinfectant, MAR:35

Microcomputers (see Computers)

MMWR Update
ACIP recommendations for protection against viral hepatitis, JUL:SUPP-3
AIDS antibody test for screening blood, MAR:36
AIDS incidence increasing, JAN:8
cytomegalovirus endemic in day-care centers, APR:49
diphtheria and tetanus immunization in adults, OCT:131
DTP shortage, FEB:21; APR:49
hepatitis B outbreak traced to dentist, APR:49
hepatitis B vaccine not linked to AIDS, FEB:20
HTLV-III virus test proven accurate, NOV:137
immunotherapy related to nocardiosis, JAN:8
influenza type A outbreaks, MAR:37
live virus vaccines for patients with impaired immune system, JUL:89
sex-behavior changes in San Francisco homosexuals, DEC:154
shigellosis incidence on decline, DEC:154
tuberculosis decline, JUL:89

Mock trial
on infection-related lawsuit, MAR:26

Morbidity and Mortality Weekly Report highlights (see MMWR Update)

N

Needles
precautions in preventing Creutzfeld-Jakob disease, DEC:145

Neonatal intensive care unit
sterilizing linens in, APR:43

Newborn
cord care comparison between alcohol and triple dye, NOV:135
herpes simplex infection not prevented by cesarean section, JUN:76
nosocomial infections in, NOV:136

Newsletter
of newly formed International Federation of Infection Control, MAR:35

Nocardiosis
immunotherapy related to, JAN:8

Nosocomial infections
blender causing Enterobacter outbreak on cardiac surgery unit, MAY:67
Creutzfeld-Jakob disease, DEC:145
final results of SENIC, JAN:4
increased readmissions under DRGs, JUL:85
influenza, OCT:124
in newborn, NOV:136
open catheter drainage system causing (RQ), APR:46
pressure-monitoring transducers causing, NOV:133
in sickle cell patients, AUG:95
Study on Efficacy of Control (See SENIC)
varicella risk from exposed employee, MAY:53
West Virginia hospitals pooling data on, NOV:142
wound infections (See Wound infections)

Nursery
nosocomial infections in, NOV:136
sterilizing linens in, APR:43

Nursing homes
influenza vaccination of elderly in, OCT:121

O

Obstetrics
cesarean section not preventing neonatal herpes simplex, JUN:76
wearing cover gowns over scrub suits in (RQ), SEP:113

tacky mats ineffectiveness in, FEB:22
temperature and humidity in (RQ), NOV:138
Organizations
formation of International Federation of Infection Control, MAR:35
Outpatient clinic
AIDS patients in, SEP:105
preventing nosocomial infections in, SEP:105
tuberculosis patient in, SEP:106
Operating room (See also Surgery)
air exchange in (RQ), NOV:139
CDC guideline changes on ventilation, JUL:83
cross-contamination in special procedures (RQ), DEC:151
decontamination of instruments contacting pus or blood (RQ), JUN:75
home laundering of scrub suits (RQ), MAR:34
scrubbing before surgery (RQ), OCT:128
shoe covers in (RQ), OCT:126
surgeon with sutured hand not permitted to perform surgery (RQ), MAY:61

P

Personnel
staffing needs of infection control program related to patient mix, AUG:93
wearing acrylic fingernails (RQ), AUG:99
Pertussis
immunization against, OCT:131
Pet therapy
Salmonella and other pathogens isolated from animals used in, APR:51
Physical therapy
transmission risk in hydrotherapy pool (RQ), AUG:98
Pneumococcal pneumonia vaccine
for elderly, OCT:123
Pneumonia
pneumococcal vaccine in elderly, OCT:123
Policies
eliminating routine sputum cultures, MAY:63
practicality important in avoiding lawsuit, MAR:27
reuse practices for medical devices, SEP:115
for varicella-exposed employees, MAY:53
Posters
children's drawings of pathogens, MAY:62
in isolation education, JAN:2
teddy bear for handwashing, MAY:65
Postoperative infections
private room for (RQ), APR:47
procedure-specific rates, FEB:13
Prospective payment
APIC Survival Kit strategies to cope with, AUG:96
challenge to infection control program, FEB:22
cutbacks in infection control programs under, DEC:148
increased readmissions due to nosocomial infections under, JUL:85
increased surgical wound infections related to, MAR:30
nosocomial infections represent major loss under, NOV:141
Prostatectomy
drainage tube diameters used after (RQ), FEB:19
Psoralen
AIDS virus susceptibility to, JUN:79

R

Reader Questions
acrylic fingernails worn by hospital personnel (Nava, Crow), AUG:99
antisepsis for intravenous therapy or injections (Kunin), OCT:126
avoiding contaminated antiseptics by keeping them in closed containers until use (Spencer), AUG:99
Clinitron beds in AIDS patients (Lusby, Wofsey, Gurevich, Sharbaugh), MAR:32
common chalice used by patients at Holy Communion (Kunin), JUL:87
containers for stool specimens (Washington), NOV:139
continuous bladder irrigation ineffectiveness (Kunin), APR:46
cross-contamination in Hubbard and immersion tanks (Favero), NOV:138
cross-contamination in special procedures room (Washington), DEC:151
decontamination of instruments in contact with pus or blood (Ryan), JUN:75
evaluating manufacturer's claims about disinfectants (Washington, Spencer), MAY:60
frequency of urinary catheter and drainage bag changes (Kunin), SEP:112
goldfish gifts for patients (Spencer), MAY:61
hepatitis B screening in amnion donors (Kane), JAN:6
hepatitis B virus deactivation (Washington), DEC:151
herpes spread by employees (Spencer, Valenti), DEC:150
home laundering of scrub suits (Spencer), MAR:34
infection risk from brief disconnection of central lines (McCormick), JAN:7
isolation time for TB patients (Atkinson), JUN:74
laboratory criteria for contaminated urine specimens (Kunin), JAN:7
laboratory identification of insects (Washington), FEB:19
OB-GYN nurses wearing cover gowns over scrub suit (Nava), SEP:113
private rooms for postoperative infections (Craig), APR:47
reuse of disposable insulin syringes by diabetics (Spencer), JAN:6
scrubbing before surgery (Davis), OCT:128
securing indwelling urinary catheters (Gurevich, Kunin), NOV:140
shelf life of prepackaged sterile items (Ryan), JUL:86
significance of left shift in white cell count (Spencer, Washington), JUL:87
shoe covers in hospital areas (Spencer), OCT:126
surgeon with sutured hand not permitted to perform surgery (Davis, Kunin), MAY:61
temperature and humidity of operating room (Beck), NOV:138
transmission risk in hydrotherapy pool (Favero), AUG:98
tuberculosis precautions on general ward (Atkinson), FEB:18
urinary drainage tube dimensions lack of correlation with infection (Kunin), FEB:19
Readers Write
best type of surveillance, AUG:100
common chalice's hazards, SEP:114
false fingernails linked to infection, OCT:125
home care infection control, FEB:20
NOSO-3 software as versatile as AICE, AUG:100
Recovery room
shoe covers in (RQ), OCT:126
Resources (see Sources of Information)
Reuse practices
CDC guideline change on, JUL:81
conference on, JUN:79
disposable insulin syringes by diabetics (RQ), JAN:6
federal funding for research on, SEP:117
of isolation materials, OCT:130
for pressure-monitoring transducers, NOV:133
widespread use in hospitals, MAY:58
written policies for medical devices, SEP:115
Risk management
infection-related lawsuits, MAR:25
Rotavirus
vaccine for, JAN:10

S

Salmonella
patient placement in huge outbreak, JUN:72
in pet therapy animals, APR:51

Screening
of amnion donors for hepatitis B (RQ), JAN:6

Scrub suits
home laundering (RQ), MAR:34

Seafood
Vibrio vulnificus infection associated with, DEC:155

SENIC
computer software for wound infection surveillance index of, JUN:71
final results, JAN:4
infection control staffing recommendations challenged, AUG:93
wound infection risk index of, JUN:69; AUG:100

Sexual behavior
changes in San Francisco homosexuals, DEC:154

Shigellosis
declining incidence, DEC:154

Shoe covers
CDC guidelines downgrading use, JUL:83
in hospital areas (RQ), OCT:126

Sickle cell disease
nosocomial infections in, AUG:95

Study on Efficacy of Nosocomial Infection Control (See SENIC)

Surgeon
hepatitis B carrier forced to cease surgery, FEB:15
sutured hand and performing surgery (RQ), MAY:61

Surgery (See also Operating room; Wound infections)
CDC guideline changes on preoperative shaving, JUL:83, 90
gowns with nonwoven barrier material equal to cotton, JUL:85
overutilization due to DRG system, MAR:30
procedure-specific wound infection rates, FEB:13
scrubbing technique (RQ), OCT:128
waste disposal in, OCT:124

Surveillance
best type, AUG:100
computer software for, AUG:100
SENIC index on wound infections, JUN:71
computers used in, APR:41
eliminating routine sputum cultures, MAY:63
increased activity for wound infections, MAR:29
for methicillin-resistant Staphylococcus aureus, SEP:108
procedure-specific wound rates, FEB:13
West Virginia system with hospitals pooling data, NOV:142
of wound infections, JUN:69

T

Tacky mats
ineffectiveness in infection control, FEB:22

Tears
AIDS virus presence in, OCT:129

Tetanus
immunization in adults, OCT:131

Transducers
alcohol disinfection for, NOV:133

Transfusions
AIDS antibody test for screening blood, MAR:36; APR:44
AIDS related to, JAN:9
safety of blood supply from AIDS, MAY:58

Transmission
air fluidized beds in, MAY:67
common chalice used by patients at Holy Communion (RQ), JUL:87
hospital cooling towers associated with Legionnaires' disease, JUN:76
in hydrotherapy pool (RQ), AUG:98
in nursery nosocomial outbreaks, NOV:136
tears as unlikely source of AIDS, OCT:129
of tuberculosis (RQ), FEB:18

Transplantation
hepatitis B screening in amnion donors (RQ), JAN:6

Triple dye
comparison in cord care with alcohol, NOV:135

Tuberculin test
in employee health program (RQ), FEB:18
Tuberculosis
decline in 1984, JUL:89
disinfection of devices used by patients with (RQ), MAY:60
isolation for, JAN:3
length of isolation time for TB patients (RQ), JUN:74
in outpatient clinic, SEP:106
precautions on general medical ward (RQ), FEB:18

U

Ultraviolet light
in tuberculosis control (RQ), FEB:18
Umbilical cord
alcohol compared with triple dye for care of, NOV:135
Urinary catheterization
continuous bladder irrigation ineffectiveness in preventing infection (RQ), APR:46
drainage tube's diameter and length not correlated with infection (RQ), FEB:19
frequency of changes (RQ), SEP:112
securing indwelling catheters (RQ), SEP:112; NOV:140
Urinary drainage system
ineffectiveness of open system with continuous bladder drainage (RQ), APR:46
Urinary tract infections
open catheter drainage system causing (RQ), APR:46
urinary drainage tube dimensions not correlated with (RQ), FEB:19
Urine
laboratory criteria for contaminated specimens (RQ), JAN:7

V

Vaccines
DTP shortage, FEB:21
hepatitis B (see Hepatitis B vaccine)
influenza vaccination of elderly, OCT:121
live virus products for patients with impaired immune system, JUL:89
pneumococcal vaccine in elderly, OCT:123
for rotavirus, JAN:10
shortage of DTP, APR:49
varicella, MAY:57
Varicella
admissions screening for patients exposed to, MAY:56
employees exposure to, MAY:53
vaccine against, MAY:57
VZIG for employee exposure, MAY:56
Varicella zoster immune globulin (VZIG)
for employee exposure to varicella, MAY:56
Venipuncture
wearing gloves for, SEP:107
Ventilation control
for tuberculosis precautions (RQ), FEB:18
Ventilation system
in isolation room, MAY:54
Vibrio vulnificus infection
after seafood ingestion, DEC:155
Video laser disc system
in problem-solving education, MAR:28
Videotapes
Aseptic Techniques in Operating Room, JAN:9
humorous fashion show teaches about new CDC isolation categories, SEP:109
Infection Control Starts with You, JAN:9
Viral infections
live vaccines for patients with impaired immune system, JUL:89

W

Waste disposal
availability of revised CDC guidelines, DEC:153
CDC guideline changes on, JUL:82
New York City ordinance adds cost to hospitals, OCT:124
Water system
hospital cooling tower implicated in British Legionnaires' disease outbreak, JUL:90
hyperchlorination of storage tanks effective in controlling Legionnaires' disease, JUL:88
Wound infections
CDC revised guidelines on, FEB:17; JUL:83
classification, FEB:13
computer software for SENIC infection risk index, JUN:71
procedure-specific rates, FEB:13
prospective payment influence on, MAR:30
SENIC risk index for, JUN:69; AUG:100
shaving hair before surgery and, JUL:83, 90
surveillance increase for, MAR:29

Back issues of HIC available

Back issues of HIC for 1985 and previous years are available from American Health Consultants for $9 an issue. This cost includes postage and handling. To order, send a check or money order to: American Health Consultants, Subscription Department, 67 Peachtree Park Drive, NE, Atlanta, GA 30309.■

HOSPITAL INFECTION CONTROL© is published monthly by American Health Consultants Inc., 67 Peachtree Park Drive, NE, Atlanta, GA 30309. Phone: (404) 351-4523. Second-class postage paid at Atlanta, GA (ISSN 0098-180X). POSTMASTER: Send address changes to Hospital Infection Control, 67 Peachtree Park Drive, NE, Atlanta, GA 30309.

Editor: **Theresa Waldron.** Copy Editors: **Genevieve O'Brien, Julie Sabin.** Washington Correspondent: **John O'Rourke.**

Subscription rates: USA and Canada, one year (12 issues), $108; three years, $276. Elsewhere, add $10 per year, total prepaid in U.S. funds. Back issues, when available, $9.00 each.

Opinions expressed are not necessarily those of this publication. Mention of products or services does not constitute endorsement. Clinical, legal, tax, and other comments are offered for general guidance only; professional counsel should be sought for specific situations.
